

Unlocking Innovation with OniX Hub: Accelerating Impactful Research Ideas to Market

PARTNERING | FUNDING | INNOVATION | KNOWLEDGE | LICENSING | INVESTING

OniX Hub is a platform designed to democratize access to a wealth of scientific and industry data, empowering startups, biotech companies, and research organizations to accelerate and de-risk their research and development efforts and to support their business development activities. OniX offers a startup fee to tech transfer offices, startups, and pre-seed biotech companies.

Comprehensive and Continuously Updated Data: New Data Weekly

- **Real-Time Information:** Over 80,000 individual assets from more than 10,000 biotech and startup companies, with new companies and assets added weekly.
- **Broad Coverage:** Includes data from stealth companies and entities without websites.
- **Advanced Search Capabilities:** Easily identify relevant assets and partners.

Unparalleled Access to Critical Data: A One-Stop Knowledge Hub

- **Publications:** Access over 35+ million publications from PubMed.
- **Clinical Trials:** 800,000+ clinical trials from more than 200 agencies.
- **Patents:** Information on 150 million+ patents from Espacenet.
- **Live News:** Stay updated with live news from the internet.

Generative AI Capabilities: Easy to Find

- **AI-Powered Summaries:** Using tools like ChatGPT to provide summaries of preclinical, clinical, and company pipelines, making it easy to identify research, technology, companies, and key individuals of interest.

Key Features and Benefits: Data and Access

- **Accelerate Research:** Discover potential collaborators and drive innovation by revealing promising new technologies and therapeutics.
- **Strategic Decision-Making:** Make informed decisions with comprehensive industry knowledge.
- **Time Efficiency:** Save time with customized searches and frequent updates.

What Sets OniX Hub Apart: Unique Services

1. **Global Access to Preclinical Assets:** Includes some assets not in the public domain, as well as private biomedical foundation data.
2. **Direct Support for Contacting Assets:** Facilitate connections with technology, people, and companies of interest.
3. **Generative AI Reports:** Summarize millions of abstracts, including preclinical, publications, clinical, and companies' asset pipelines into easy-to-read formats.

Additional Capabilities: Full-Spectrum Support

- **Showcase Research Output and Technology Transfer (TT) Assets:** Position and profile startups for partnering.
- **Enhance In & Out Licensing:** Drive partnerships and investments.
- **Support for Universities and Research Organizations:** Facilitate submission of ideas from researchers and protect IP.
- **Industry Support:** Equip industry members to search the global dataset for ideas aligning with their interests, supporting external innovation, business development, competitive intelligence, and R&D efforts.
- **Foundations and Charities:** Collaborate to provide access to OniX for research applicants, informing investment and funding decisions, and enabling increased access to funding opportunities.

Upcoming Features: more to come

- **OniX AI:** Neural Networks Search.
- **OniX Ven:** Support for Product Development.
- **Industry Profiles:** Detailed industry insights and analytics.

Large pharmaceutical companies have already enhanced their strategy, partnerships, and business development activities by leveraging OniX Hub. Providing this powerful tool to incubators, accelerators, and research parks will significantly support startups and biotech companies in achieving their Strategy, R&D and BD goals.

Contact Us: We would be delighted to provide a demonstration of OniX Hub and discuss how it can benefit your organization. Please contact us at martin@onixhub.com to schedule a session or for any further information.

About the Online Ideas Exchange Hub

Connecting Ideas to Opportunities

OniX is the premier research knowledge hub supporting global innovation. Our platform aggregates public and proprietary data spanning the research ecosystem - from universities to industry.

With OniX, you can:

- Discover cutting-edge technologies to license or invest in
- Identify collaboration opportunities to accelerate R&D
- Enhance business development, partnering and licensing efforts
- Track competitor activity for strategic planning
- Monitor emerging startups disrupting your market
- Develop actionable insights across the product life cycle

We transform data into opportunities by connecting ideas, assets and talent across the research universe.

OniX Includes (as of 06/01/24):

- 1M+ ideas/assets
- 36M+ publications
- 700K+ clinical trials
- “Live” News
- 100K researchers
- 50+ countries
- 2K+ universities
- 80K+ startups/(bio)tech assets
- 9K+ startups/(bio)tech “live” pipelines

We Are Adding (weekly):

- 5K+ ideas/assets
- 1K+ publications
- 400+ startups/(bio)tech pipelines

OniX aggregates data from:

- **Ideas:** Global Government and Private Funding agencies, e.g., NIH, NSF, CIHR, MRC, JSPS, AMED, NHMRC, ACS, AHA, MJFF, Parkinson UK, BHA, and others; tech transfer, accelerators, incubators, research parks; intramural projects, funded and unfunded research projects
- **Publications:** PubMed
- **Patents:** Espacenet
- **Clinical Trials:** 200+ agencies
- **News:** Internet
- **Pipelines:** from startups, biotech and pharmaceutical companies
